

BIOGRAPHY

Ruthanne Schulte, **Product Manager** **WELCOM**

Ruthanne Schulte has been employed with Welcom since 1990. She currently serves as Product Manager of Cobra, the leading earned value management software solution developed by Welcom. Ms. Schulte is responsible for implementation, training, customization, and sales of Cobra. With extensive experience in earned value, government requirements, and implementation techniques, she has been instrumental in making Cobra a successful commercial application. Ms. Schulte is a highly sought speaker on earned value management and has published numerous articles and white papers. Welcom clients and numerous project management professionals rely on her expert advice relating to the importance of managing project costs, measuring earned value, and analyzing budgets, actuals, and forecasts. Prior to joining Welcom, Ms. Schulte held the position of Design Engineer with the Texas State Department of Highways. During that time she developed schedules and performed manpower studies based on multi-project resource scheduling. Ms. Schulte earned a BS in Civil Engineering from Texas A&M University.
